## 1 General Presentation

The NETSTAT A61K mechanical keyboard is a compact 60% (61-key) wired (USB) keyboard with red mechanical switches (linear, fast, quiet), 50-million keystroke durability and RGB lighting with 17 effects. Being 60%, the navigation and F1–F12 keys are accessed via FN combinations. Great for gaming and office, it saves desk space.

---

## 2 Connection

The keyboard is wired: connect the USB cable to your computer and it works immediately, with no drivers or setup. Compatible with Windows XP/Vista/7/8/10, Android and Linux. No battery — no charging needed.

### 3 Key Combinations (FN)

As a 60% keyboard, you use FN for the F-keys and navigation. Hold FN and press the indicated key.

|                      |                                    |
|----------------------|------------------------------------|
| FN + 1...=           | F1 ... F12                         |
| FN + Y / U / I       | Print Screen / Scroll Lock / Pause |
| FN + H / J           | Insert / Home                      |
| FN + K / N / M       | Page Up / Delete / End             |
| FN + , (virgulă)     | Page Down                          |
| FN + Backspace       | Delete                             |
| FN + Enter           | Backlight on / off                 |
| FN + ] / [           | Brightness + / -                   |
| FN + ; / '           | Effect speed - / +                 |
| FN + W               | Swap WASD ↔ arrow keys             |
| FN + Win (stânga)    | Lock the Windows key               |
| FN + Space           | Factory reset                      |
| FN + Shift(dr) + ESC | Reset / restart keyboard           |

### 4 RGB Lighting

The keyboard has 17 lighting effects. Change the effect with the dedicated effect key (FN + the lighting-symbol key), adjust brightness with FN+] / FN+[ and effect speed with FN+' / FN+;. Backlight on/off: FN+Enter.

### 5 Specifications
